SUPERINTENDENT'S REPORT

To the School Board and the Citizens of the School District of Columbia.

Foreword

If we stop for a moment to look into the future, during these days of increasing uncertainty, we have reason for grave concern. At first we may be a bit prone to think of expenses. With the cost of living steadily rising, accompanied with the parallel raises in salaries in all types of work generally, overall increases in school operational costs can be expected. Add to this general contributing factor those in our schools of even larger enrollments, still higher tuition rates, an alarming scarcity of elementary teachers, continued expansion and improvement to provide more adequate facilities and equipment, and no state aid in some cases, the necessity of increases in the school budget becomes apparent.

As has been pointed out in previous reports, however, the matter of primary concern to us is the extent to which we are providing a training which will help our boys and girls to meet the perplexing situations, and solve more adequately the difficult problems in future life. This means that as the boy or girl progresses through the work in the successive grades in his or her school life, it is highly important that opportunities be provided for him or her to apply the facts and concepts learned. In this way only can that understanding, self reliance and basically sound judgment be developed, which will ultimately result in a philosophy of life of thought and action which will help to make this a better world in which to live.

Teachers

During this period of continued shortage of elementary teachers, we are very fortunate to have

veteran teachers in every position in the district. Viola H. Sutton, who formerly taught at the Valley School, now closed, teaches at the Grand Division School. The same teachers have returned to the three remaining schools. Florence B. Hughes is at Church, Gladys P. Fearon at Cone, and Mary E. Gray at South Columbia.

Enrollment

With the closing of the Valley School the enrollment of 88 pupils, is of course, less than it was last year when 105 were on the membership list in our schools. However, this number compares favorably with the 89 enrolled two years ago. The average percentage of attendance for the five schools in operation during the past year was 94.55 and the average number of tardinesses per pupil was .37. A tabulation immediately following the statement of the estimated income of the district in this report shows a breakdown of these data for each school.

Although the number of tuition pupils has increased from last year's number of 30 to a total of 36, there has been a decrease in Grades 9-12, as only 23 are enrolled at Colebrook Academy, while the remaining 13 from the Valley District are attending the Colebrook Elementary School.

Buildings and Equipment

The policy of keeping the buildings in a good state of repair and maintenance has been continued this past year. During the summer vacation such work was done and improvements made as were believed necessary to provide those quarters and facilities which contribute to the happy life and effective work of the school.

In keeping with the above mentioned policy of maintenance and repair, also work was done on buildings not presently used. Such was the case in hav-

ing the roof shingled at the Union School in the Bungy District.

Classification of Schools

The district is to be commended for classifying the remaining schools this year, namely, with Grades 1-4 at South Columbia, and Grades 5-8 at Cone. With the additional time that may now be devoted to each class plus the greater opportunity for the teacher to give more individual help than was formerly possible when all eight grades were in the same school, more learning and understanding should result as the boys and girls progress from grade to grade.

Notes on the Budget

The School Board's Budget and requested appropriation for 1951-52 is \$26,530 as compared to \$26,744 for this year. This amount is reduced by an estimated income of \$5,000 which leaves a balance of \$21,530 to be raised by taxes by the town.

Legislation

To date no educational bills relative to state aid have come up for discussion and consideration at the present session of the Legislature. The indications are, however, in so far as the proposed formula for determination and distribution of possible funds is concerned, that the district may receive possibly a little more than the amount allotted by the State during each of the past two years.

Conclusion

In light of the present world situations, and of what may be found over the horizon just ahead, the obligation of our schools to do everything possible to help our boys and girls to effectively meet these conditions becomes paramount.

Again I wish to express my sincere appreciation to the members of the school board, parents, teachers, and citizens for all the cooperation received in our work together to maintain high standards in our schools.

Respectfully submitted,

ERNEST B. DANA
